About Riverview Medical Practice

Riverview Medical Practice is a modern family medical practice, located at Blaxland in the beautiful lower Blue Mountains.

Owned by principal GP Dr Coral Shaw, our dedicated doctors have been looking after the local community for over 30 years.

We also have an expert team of nurses and allied health professionals providing a wide range of services including Physiotherapy, Dietetics, Pathology collection and Exercise Physiology.

Our mission is to provide the highest standard of patient care while taking a holistic approach toward diagnosis and management of illness.

At Riverview Medical Practice, we combine the best of General Medicine, as well as Lifestyle and Integrative Medicine, and address both the physical, as well as the lifestyle, nutritional and emotional needs of patients.

Our team of health professionals are able to guide patients through dietary and lifestyle changes by introducing patients to many integrative therapies that can complement patient's lifestyle for better overall health and wellness.

Rather than rushing consultations, we prefer to take the time to provide holistic care for our patients, especially those with complex health issues.

Our doctors listen carefully to patients, and allow time for proper discussion of any issues and a physical examination if required. If they believe a patient needs more of their time, they do their best to give it to them.

This is a perfect place to establish or further your career as a medical practitioner. The area sits in a Distribution Priority Area as at 2 May 2022. Hence, there are many incentives included at this medical practice. For further information regarding incentives, please click on the link to [ACRRM](#)

Every effort is made to make patients feel comfortable including a beautiful interior and caring and supportive staff. The centre is bright and airy with fresh flowers and plants. Why don't you check out their new website on <https://www.riverview>.

[doctor](#)/The most important item to note is that there is a waiting list of patients waiting to transfer to the centre! This is a very popular practice with locals due to its professionalism and supportive environment. You will have patients from the day you start and the chance to be an integral part of the community.

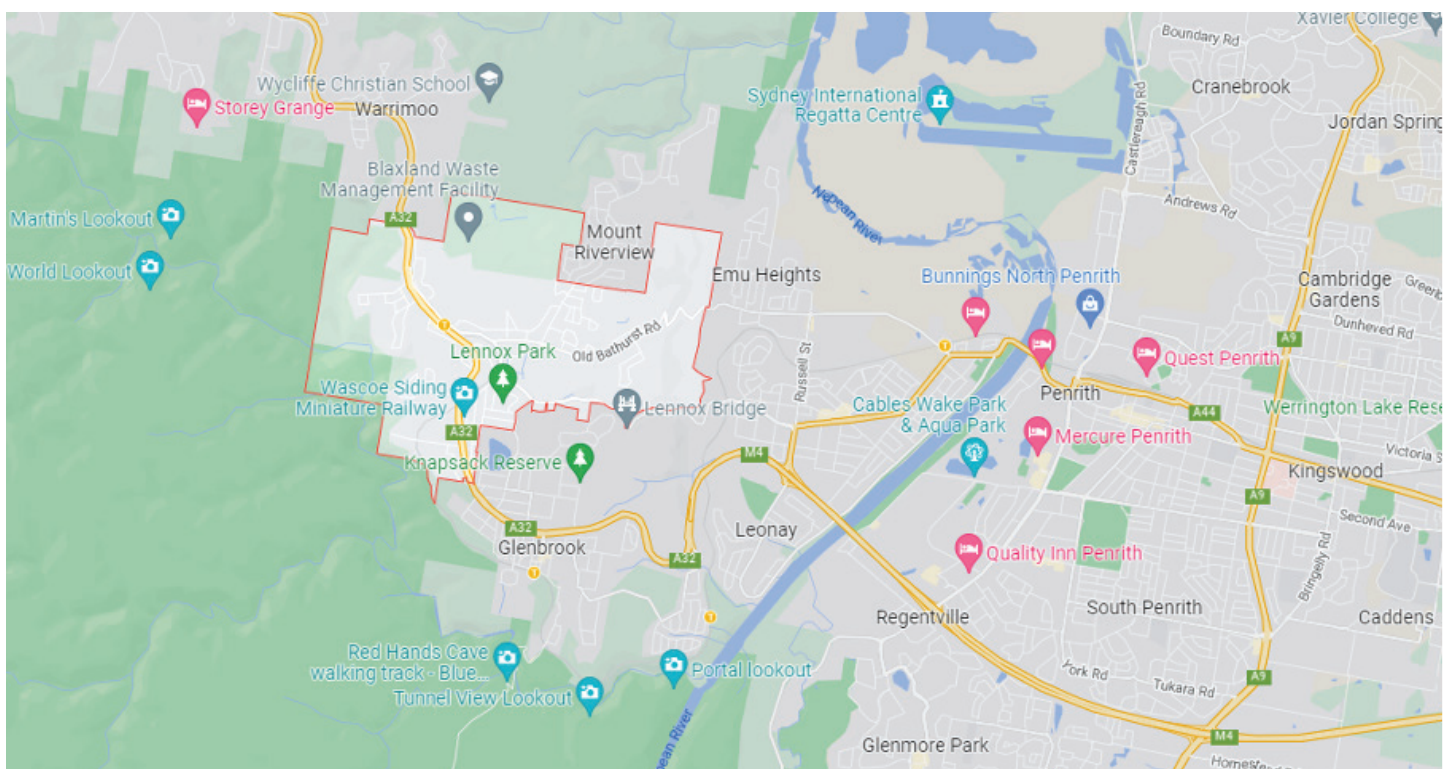

Location and history

Riverview Medical Practice is located in Blaxland which is around 40 minutes drive from Katoomba, 10 minutes from Penrith and only 54 minutes to Sydney. It is the perfect location away from the busy city life but near enough to go and spend a day or a weekend away with family or friends. And did we mention that it is only 8 minutes away to the beautiful Blue Mountains? For further information about Blaxland, please [follow this link](#).

The population of Blaxland is close to 7500 and further statistics can be found on the Nepean Blue Mountains District PHN Data Profile [via this link](#).

If you are a doctor who enjoys lots of out of work activities, Blaxland is the perfect playground. There are dozens of lookouts, waterfalls, walking trails and swimming holes. There are incredible landmarks including the Three Sisters or Govett's Leap and exciting ways to explore the area. If you are a bit of an adventurer, there are activities such as abseiling, bush walking, canyoning and horse riding. You will never be bored exploring this beautiful part of Australia.

If you are a foody or like the nightlife, there are plenty of restaurants and taverns including the Lapstone Hotel which is a favourite of the locals.

Climate

In Blaxland, the summers are warm and partly cloudy, the winters are cold and mostly clear. The temperature varies between 2 to 29 degrees Celsius.

Schools

There are four public schools in Blaxland and five pre-schools/ Kindergarten. All the schools are recommended by the locals and have excellent community support and integration.

Practice Team

There are three doctors at the practice and visiting allied health professionals.

:: Dr Coral Shaw

Dr Coral Shaw has a passion for Lifestyle Medicine, applying environmental, behavioural, medical and motivational principles to the management of lifestyle-related health problems.

Coral works closely with patients to address both the cause, and the "cause-of-the-cause" of lifestyle related health problems, with the aim to prevent and reverse early to medium onset chronic disease by assisting patients through evidence-based lifestyle and behaviour modification.

She also has a keen interest in Dermatology and small procedures, Paediatrics and loves working with children.

:: Dr Sherri Roberts

Dr Sherri Roberts has been looking after families in the local area, and from afar, for the past 40 years.

Sherri has a passion for Integrative Medicine, taking a holistic approach to the interactions of both nutrition and environment on human health. Sherri uses both traditional and natural remedies, with sensible lifestyle measures to heal, and promote wellness.

Nutrients are the building blocks of our physical body. When the body is supplied with the correct balance of foods, vitamins and minerals we remain healthy. Sherri works with patients to address lifestyle and nutritional factors, using supplemental and other evidence based complementary approaches to treatment of disease.

:: Dr Emma Hazleton

Dr Emma Hazelton has a background of 11 years service with the Australian Defence Force, being deployed multiple times to the Middle East.

Emma is a Designated Aviation Medical Examiner (DAME), and can perform Underwater (Dive) Medicals as a member of the South Pacific Underwater Medicine Society (SPUMS). She is furthering her studies with a Master of Occupational and Environmental Health.

Emma is now calling the Blue Mountains home where she enjoys hiking and paragliding.

These are great doctors to work with and are complimented with an amazing team of support staff and an award-winning practice management team.

If you would like to see the rest of the medical staff at Riverview Medical Practice, please visit the [Team page here](#).

The practice uses Best Practice medical management software and has recently introduced Automed for online bookings and other electronic systems. We have a caller ID telephone service which means that when the telephone rings we know who is on the phone so we can greet them personally.

Patient Services

The practice aims to provide the patients with the best possible range of services all under one roof. Patients travel from miles around to seek services at this medical centre. Riverview Medical practice believe that by improving the service delivery and communication systems, they can provide a first-class service for patients.

GP's have their own special interests and these contribute to the extensive services provided to the clients. For further information regarding patient services, [please click on this link](#).

What we are looking for

We are looking for medical practitioners who want to be part of a community and thrive in general practice. This is also a very busy practice with a patient waiting list. Expect to hit the ground running but also expect to have the support from your senior colleagues. There is a broad range of medicine in this community and the opportunity to add your niche to general practice. We need GPs who want to be part of a team, value good humour and professional ethics. Open communication is a must so if there is something you value, let us know and we will do our best to accommodate.

What Riverview Medical Practice can offer

Apart from great location and a friendly working environment, we offer a competitive percentage for contractors and above award wages for registrars. We offer GPs to put their mark on the practice and value feedback and new ideas. The health industry is fast paced and we like to ensure that we are keeping up with the times and offering as much as we can to both GPs and patients. This of course has been more prevalent during the recent pandemic.

What are you waiting for? Apply today

For further information regarding this wonderful practice, please contact Nicky Jardine on 0438456460 or email: pm@riverview.doctor

Believe me, if you join the practice, you will be well looked after and supported. This is a real family practice that values their GPs and patients. We are very much looking forward to having you on board.
